

# Kiara!

FAST INKJET COLOR  
LABEL PRINTER

- >> Create Custom Labels
- >> Cut Label Costs
- >> Keep Up with Production Demand

## Get Label Flexibility with the Kiaro!

The Kiaro! delivers flexibility in labeling. With the Kiaro!, you'll be able to print finished labels virtually as fast as you generate work orders. You'll leverage its all-digital, high-speed label printing capacity to manage labels for your diverse product line, to custom-print private label packaging, and to personalize your products.

With the digital on demand Kiaro! label printer, you will only spend money when you actually print labels – never for a minimum order of pre-printed labels that gather dust in your stockroom and decline in value. And with four separate ink cartridges, you will only replace inks one color at a time.

You'll always have product labels at your fingertips when you print your own labels with a Kiaro!. There will be no more time delays or friction caused by working with an outside label printing company, and no concern over whether you have the right labels in inventory.

# Fast Inkjet Label Printer Designed for High Production

**>> Put aside any advertised claims and see for yourself. We'll come to your office to give you an in-person demonstration of the Kiaro! label printer. [QuickLabel.com/demo](http://QuickLabel.com/demo)**

The Kiaro! keeps your production moving, printing labels at up to 8 inches per second (40 feet/12 meters per minute). To translate its speed into label-making productivity, if your labels are 4 inches long (102mm), you will be able to print over 7,000 labels per hour!

But what is print speed without print quality? There is no need to worry. The Kiaro! prints labels in high resolution faster than any other tabletop color label printer. You'll get the Kiaro!'s 1200 dpi resolution even when you're printing labels at top speed. If you wish, you can engage the Kiaro!'s ink-saving Economy mode, but even with less ink used, you'll still be printing great-looking labels in 1200 dpi!

In order to maintain print quality, the Kiaro! automatically performs periodic cleanings "in job." This means that, if the Kiaro! detects that a cleaning is required while you are printing labels, it will pause, perform a cleaning, and resume printing the very same label. Unlike other label printers, the web is never cut and you will finish your job without "splicing" your roll of labels.

*The Kiaro! prints labels fast, whether you want rolls of finished labels or just one label at a time!*

Since we installed the Kiaro!, our tea sales have increased an average of about 40%."

– Stan Constantine & Linda Lang, Eastern Shore Tea

Your Kiaro! will print labels in the colors you intend. Enjoy the creative freedom!

**Kiario! Inks:** The Kiario! uses four separate ink cartridges, one for each CMYK color. Printing at 40 feet (12m) per minute in 1200 dpi requires very precise, small droplets, and the Kiario! ink set uses a special chemical formulation to print at this high speed and resolution. Kiario! inks have excellent flow and quick-drying characteristics, and maintain their color on the shelf for months without fading. Each Kiario! ink comes in a 240mL large capacity cartridge.

## Kiario! Inks and Labels

**Kiario! Labels:** To produce labels that go beyond just beautiful appearance (although they have that too) QuickLabel developed Kiario! paper and synthetic label substrate materials to work specifically with Kiario! inks. Kiario! materials produce high-performance labels that resist moisture, abrasion, smearing, many solvents, and UV light, and that can be used in high heat as well as refrigerator and freezer conditions. Finished Kiario! labels are available in hundreds of sizes and shapes.

*>> You can buy Kiario!  
inks and labels directly  
from QuickLabel Systems.

**Snap genuine Kiario!  
cartridges into place and  
begin printing vivid labels  
that resist abrasion.**

# Media Discount Programs

**BPO Program:** The BPO Program is a purchasing option that gives you the chance to receive the lowest possible pricing on Kiaro! labels, inks, and replacement printheads. Simply place a Blanket Purchase Order (BPO) with us for all of your Kiaro! printing supplies. If your usage level meets our minimum Purchase Order requirements, we can extend our best pricing to you, along with deep discounts on your replacement printheads. We'll ship your labels and inks to you according to the schedule you provide, and we'll guarantee not to increase your low prices during the blanket order period.

**Call QuickLabel when  
you're ready to start printing:  
877-757-7978 (USA)  
800-565-2216 (Canada)  
01628 668836 (United Kingdom & Ireland)**

**The Kiaro!  
gave us exactly  
what we needed  
to create our  
labels just in  
time, and it  
cut our cost on  
those labels by  
about 40%”**

**– David Crompton,  
Quick Fitting**

# We Support You for the Long-Term

Kiario! owners are supported by the best team in customer service – QuickLabel’s factory-trained technicians and product specialists. We take pride in offering you ongoing assistance long after your printer is installed! Our help is always available by telephone, email, and web. In addition to our standard One-Year Warranty, we offer:

**Quick Set-Up Package:** A QuickLabel specialist will come to your location, install the Kiario!, and train your users to start printing labels.

**Full Customer Support Package:** We will come to your location to provide installation and training service. After the initial set-up, you will be enrolled in our Kiario! QuickSwap™ program under which you will receive a loaner Kiario! printer in the event that your production is down and an emergency replacement printer is needed.

*We don't leave you until your Kiario! is up and running and you know how to print labels.*

*If time is money, and you want to spend less time working with what needs to get produced, this is the printer you get.”*

*– Ryan Flynt,  
CJ’s Unique  
Boutique*

**The Kiaro!'s open clamshell design makes it convenient to load blank label rolls.**

**Custom QuickLabel®  
Omni Software (included)**

Custom QuickLabel® Omni is a flexible software suite that makes it easy to create and print highly customizable labels with QuickLabel digital label printers.

**QuickDispense™  
Label Dispenser**

This semi-automatic label dispenser neatly dispenses one label at a time so a user can easily peel it away from its liner and apply it to a product.

# Accessories for the Kiaro! Label Printer

**NiceLabel® Software  
(optional)**

NiceLabel® is a professional labeling software that offers a modular solution that fits into your existing system seamlessly for bar code and RFID label design and printing.

**Kiaro! Label Rewinder**

The Kiaro! label rewinder automatically rewinds printed labels as they emerge from the Kiaro! label printer. A built-in dancer arm maintains consistent tension on the label material, preventing pulling or tugging as it exits the print engine to ensure that no print defects occur.

## Kiaro! Specifications

### Label Printer:

Print Technology: Fixed Head Inkjet, 4 printhead CMYK

Production Modes: Batch Mode, Demand Mode

Print Modes: Best, Fast, and Economy

Print Resolution: 1200 x 1200 dpi

Print Speed: 2 – 8 ips (50mm – 200mm/s). User selectable and automatic.

Label Sensing: Gap, Reflective mark, and Continuous

Connectivity: Built-in USB 2.0, Gigabit Ethernet, and RS232C

Optional Accessories: label rewinder, built-in cutter

### Label Print Area:

The Kiaro! prints edge-to-edge, full-bleed labels

Print Width: 0.875" – 4.17" (22.2mm – 105.9mm)

Print Length: 0.1" – 15.6" (3.0 – 397mm)

### Label Printing Supplies:

Ink Cartridges: Separate cartridges for each: Cyan, Magenta, Yellow, and Black ink

Ink Type: Dye-based, developed to withstand moderate moisture & UV light exposure

Ink Cartridge Capacity: 240mL (230mL usable)

CMYK Printhead Array: Set of four CMYK printheads

Purge Unit: Printhead cleaning component

Maintenance Cartridge: pad absorbs spent ink resulting from cleaning process

Label Type: Roll or Fanfold

Label Width: 1" – 4.72" (25.4mm – 120mm)

Label Length: 0.23" – 15.74" (6mm – 400mm)

Label Thickness: 5.7 Mil – 10 Mil maximum (145 – 245 microns)

Label Material Type: Inkjet receptive label materials, including matte and glossy stocks

Label Roll Size: Up to 8" (200mm) Outside Diameter

### Software:

Labeling Software: Custom QuickLabel® software (included) or NiceLabel® software (optional)

Windows® Driver: Kiaro! printer driver for Windows® 8/7/Vista/XP (32 & 64-bit, included)

### Barcodes:

All major barcodes supported, including 2D GS1 DataMatrix and QR Codes

### Physical:

Power Supply: 100 – 240V, 50 – 60Hz

Power Consumption: 4 amp (84 watts)

Dimensions: 15" W x 22" D x 15.5" H (386mm W x 570mm D x 394 mm H)

Operating Environment: Climate-controlled production environment. Maintain temperature between 59°F – 86°F (15°C – 30°C), 10 – 80% Relative Humidity.

Regulatory Compliance: WEEE, RoHS, REACH, Energy Star/year 2009), ERP LOT6 (energy conservation stand-by mode), TSCA/OSHA/EU Directive

**Get a Kiaro! Demonstration in Person!**

We will bring a Kiaro! to your office or factory and demonstrate its print quality, speed, and other performance features. If you have digital label artwork, we will be happy to show you how the Kiaro! will print your labels! Tell us when you'd like us to visit you at [QuickLabel.com/demo](http://QuickLabel.com/demo)
