Physical	19 Inch Rack Mount, 2 Rack Units High (2RU)
Dimensions	500mm (L) x 445mm (W) x 85mm (H)
Weight	10 Kg
I/O	On Request

Metromatics' MMEQ-2RU Series is a robust, 19" 2U Rack Mount Enclosure for Electronic Equipment. This style of electronics enclosure will allow you to mount different types of electronic equipment securely in your equipment rack.

It can also be customised to your requirements. The Front Aluminium plate can be modified in a number of ways allowing a selection of inputs, outputs, buttons, switches and connectors. The ventilation holes can be altered to allow for installation of cooling fans to keep your equipment operational.

Metromatics can populate the enclosure with your electronic equipment to save you time.

Images of this particular model illustrate it as a Custom Rack Mount Power Supply Enclosure for a Defence Customer. The cooling vents allow the power supply to ventilate correctly without the requirement of equipment fans.
